REPORT ON FINANCIAL ASSISTANCE PROGRAMS

This report "Financial Assistance by Geographic Area" is made up from the Department of Education's Financial Assistance Reporting System (FARS). Data for the FARS system is produced by the Department of Education Accounting system.

The Report provides data on all of the Department of Education's domestic assistance programs. It shows the amount that has been obligated for specific recipients. It identifies the recipient and the recipient's location (State, County, City and Congressional District). It also identifies the Federal Domestic Assistance Program for which the funds were obligated. If funds were obligated to a single recipient for more than one program the total obligated for that recipient is also shown.

Funds for certain programs are processed through State governments or their intermediaries before reaching the ultimate recipient. Most programs of this nature funded by the Department of Education are allocated to the State and initially flow to the State capital. Since no statistical methods are available for these programs (except for the "Educationally Deprived Children-Local Education Agencies" — (Title I) program, which is statistically distributed to county levels), these programs are identified in this publication to the State Capital location.

The report has been prepared for the benefit of Department of Education Management, principally to provide information for timely response to inquiries from the Congress, State and Local governments, and the public. The report is also of interest to many individuals and organizations outside the Department of Education.

"Financial Assistance by Geographic Area" conforms to the government-wide requirements of the Office of Management and Budget. However, it goes beyond those requirements to identify the recipients of Department of Education funds.

EXPLANATION AND ARRANGEMENT OF DATA

The data arrangement is identical for each page of the report. Each page is divided into two columns. The elements that make up each page are described below:

- | | |
|-------------------------|---|
| DATE | — The period covered by the report appears at the top of each page. The report is produced on a semi-annual and on an annual fiscal year basis. |
| STATE | — This report is arranged alphabetically by State. The State name appears in bold type in the center of the left-hand column of the page that begins the State data. For ease in reading, the State name also appears at the top of each page. |
| COUNTY | — The County name appears in smaller bold type in the center of one of the two columns on the pages. Again, for ease in reading, the County name also appears at the top of the page. |
| CONGRESSIONAL DISTRICTS | — The Congressional District number appears in parenthesis beneath the County name. Congressional Districts do not have names, only numbers, assigned within the State. Some Counties include more than one Congressional District, in which case the number for each District will be shown. If the Congressional District is designated as being at large, the words "At Large" will be shown instead of a number. |
| COUNTY LEVEL OUTLAYS | — For certain large formula grant programs it is not feasible to attempt to identify the specific location of the recipients of the funds. Since it is impractical to prorate such funds at lower than the County level, such prorated funds appear directly beneath the County name, and are identified as "County Level Outlays." When proration methods are used, this fact is footnoted by a single asterisk (*) appearing to the left of the Recipient's name. A statistical proration technique has been devised that most nearly approximates the probable distribution of funds on a geographic basis for Program 84.010 "Educationally Deprived Children-LEA's". This is the only Department of Education program that is statistically distributed. |
| CITY | — Within each County, cities are identified in bold type on the left of each column. |
| INDEPENDENT CITIES | — Certain cities in the United States, mostly in the State of Virginia, are politically independent of the County. Such cities are footnoted by a double asterisk (**) next to the City name. If there are Independent Cities in this report, they are treated in the same manner as Counties. |

COLUMNAR HEADINGS

RECIPIENT

- This column identifies the individual or organization for which ED funds have been obligated. In some cases it is impractical to specifically identify the recipient of ED obligations. These are the cases in which the funds are ultimately distributed to large numbers of people or organizations. Therefore, the recipient is shown as a collective group, rather than as a single recipient. For example, the recipient of program 84.010 "Educationally Deprived Children-Local Educational Agencies" is shown as Educationally Deprived Children Funds to LEA's.

Sometimes the phrase "Miscellaneous Administrative Expenses" appears in the Recipient Column. The line item, in such cases, represents obligations for administrative purposes only, i.e., not directly identified with an HHS program. For the purpose of this report these costs include salary and related items, travel, equipment, supplies, auditing, service contracts, etc. These obligations are aggregated for each geographic location. The "program title" is the title of the appropriation that was utilized to finance such obligations.

CATALOG NUMBER/ PROGRAM TITLE

- The word "Catalog" refers to the Catalog of Federal Domestic Assistance" updated annually by the Federal Office of Management and Budget. This Catalog identifies and describes the Federal Government's domestic programs to assist the American people in furthering their social and economic progress. The catalog may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402

Each program is identified by a five-digit code. The two left-most digits of the code identify the Federal organization which has been authorized funds for the program. The two digits "84" identify ED. In some cases these two digits are other than "84". This occurs when the funds have been authorized to another Federal organization (whose two-digit code appears in this column) but transferred, by law, to ED for administration of the program.

The five-digit code is followed by the title of the program as it appears in the Catalog of Federal Domestic Assistance.

In some cases, the five-digit code will appear as "84.000". This identifies the obligation of funds that are ED administrative funds, rather than program funds. The code is followed by the title of the appropriation instead of the program title.

AMOUNT

- The dollar figures in this column represent the amount that has been *obligated* to the Recipient during the period covered by the report. "Obligations" are funds legally set aside to be disbursed. However, the obligation of funds generally precedes the actual disbursement of funds. It is possible, therefore, that obligations reported in this column may have been disbursed to the Recipient subsequent to the period covered by this report.

TOTALS

RECIPIENT
TOTAL

- In instances where funds are obligated to a single recipient for more than one program in the same geographic area, the total obligated to the recipient is shown in bold type immediately beneath the last time the name appears in the "Recipient" column.

SUMMARY
COUNTY
TOTAL

- Immediately beneath the data for a County, the amount obligated within the County by the Department of Education.

SUMMARY
STATE
TOTALS

- At the end of the data for the State, the total amount obligated by the Department of Education is shown.

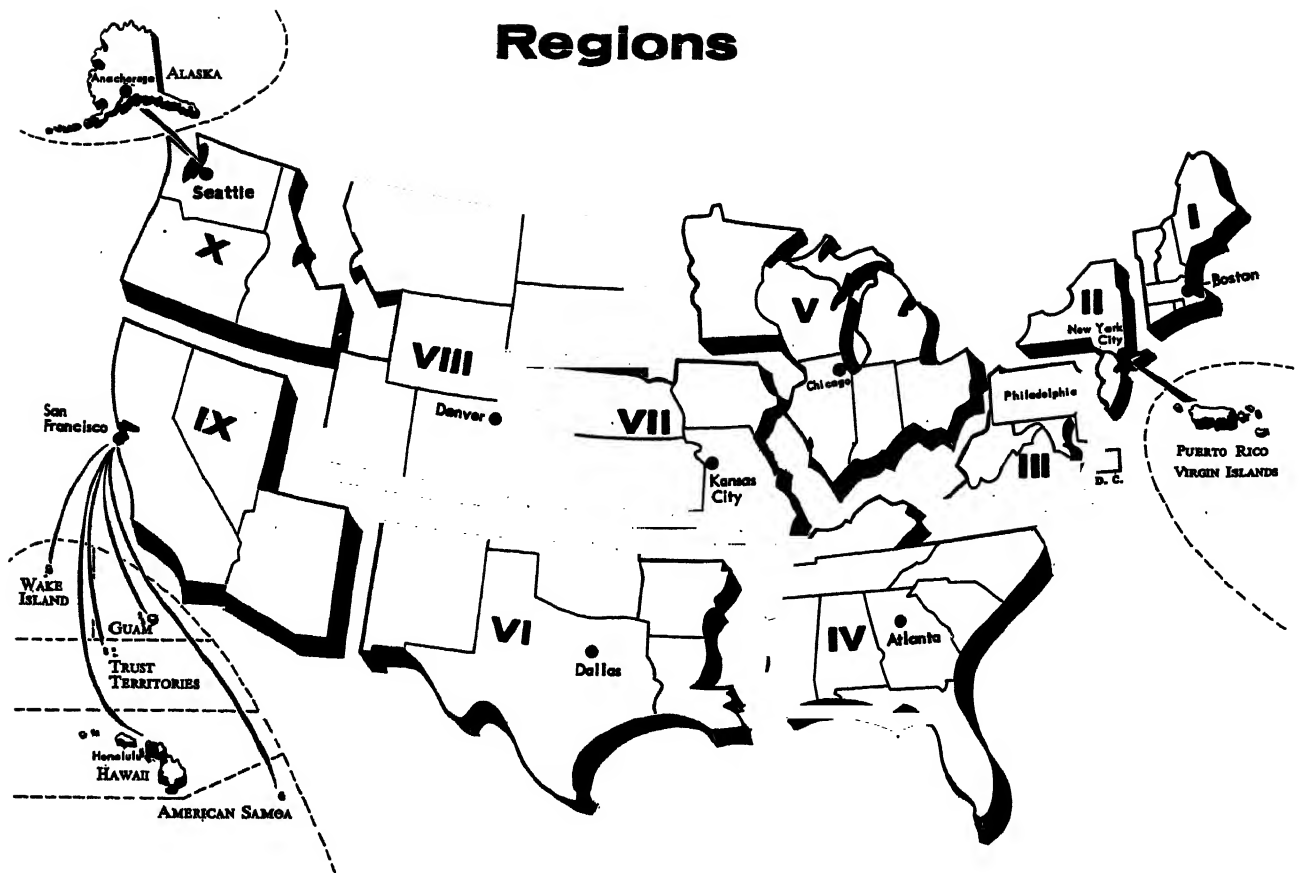

SUMMARY
REGION
TOTAL

- On the last page of each Region, the ED Region total is shown.

PRORATION AND ALLOCATION TECHNIQUES

Funds for certain programs are processed through State governments or their intermediaries before reaching the ultimate recipient. Most programs of this nature funded by the Department of Education are allocated to the State and initially flow to the State capital. Many of these programs have formulae for distribution of the money within the State and are not required to submit distribution feedback. These programs are identified in this publication to the State capital county.
